

Project name: Password App

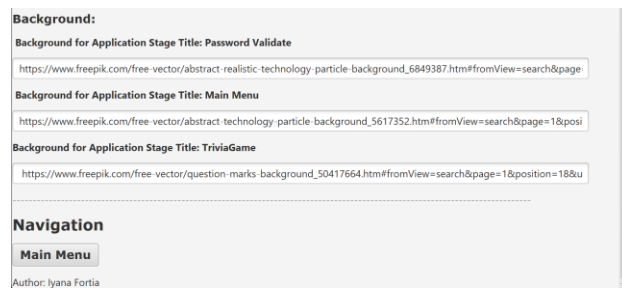

Team name: MypasswrdisNOT1234

Team member: Iyana Fortia

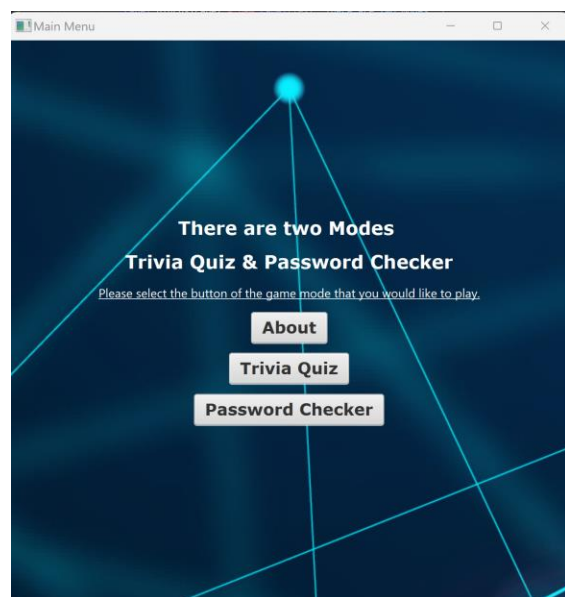

This is the first thing that the user sees when they start up the application. There are two buttons: About & Main Menu. When the About button is pressed, the user will be taken to the About page. When the Main Menu button is pressed, the user will be taken to the Main Menu page.

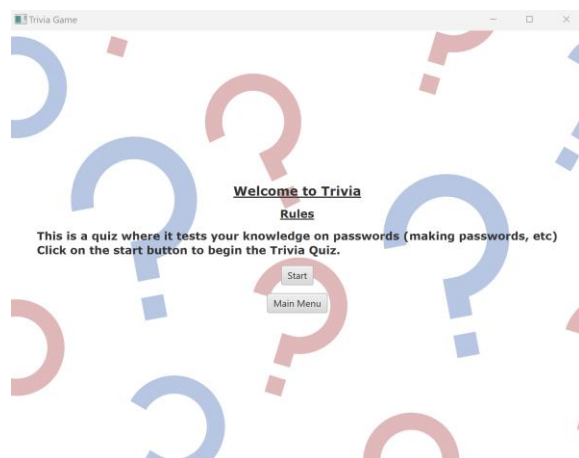

This is the About page. It has the Project's Purpose and Features, Credit, URL websites for the backgrounds, and a Navigation button to take you to the Main Menu.

The Main Menu has the About button, Trivia Quiz button, and Password Checker.

This is the Trivia Game. It has rules, a start button, and a Main Menu button. The Main Menu button takes you back to the Main Menu. The start button takes you to the actual quiz content.

Font Family:

Verdana

This is the quiz. There are four questions. Once you answer all of the questions, click on the Submit button. When the submit button is clicked on the answers will appear underneath the exit button. There is a collapsible settings menu, where you can change the font size and the font. Click on the exit button to go back to the Main Menu.

Password Checker has a password field, rules, the same collapsible setting menu, a feedback button, a show attempts button, and a Main Menu. The Main Menu button is self-explanatory. After the user puts a password in the field, then they should click on the Feedback button. The Feedback button when pressed will show the user feedback on their password. The Show Attempts button when pressed will show how many attempts you put in a password into the field.
